

CareFlow

Terms of Use & Privacy Notice — Effective August 2, 2026

This document is a placeholder Terms of Use and Privacy Notice for the CareFlow mobile application, provided for development and demonstration purposes. Replace this content with reviewed, jurisdiction-appropriate legal text before any public or production release.

1. Acceptance of Terms

By creating an account or using CareFlow, you agree to be bound by these Terms of Use. If you do not agree, please do not use the application.

2. Not a Substitute for Professional Medical Advice

CareFlow's symptom checker and AI analysis features provide general information and possible-condition suggestions only. They are not a diagnosis and do not replace the judgment of a licensed medical professional.

In a medical emergency, contact local emergency services immediately rather than relying solely on the app.

3. Account Registration

You must provide accurate, current information when creating an account, including your name, date of birth, and emergency contact details. You are responsible for maintaining the confidentiality of your login credentials.

4. Health Information We Collect

To provide facility recommendations and symptom analysis, CareFlow may collect: your gender and date of birth, medical conditions and allergies you disclose, emergency contact information, blood type, symptoms you enter, and your device's location when you grant permission.

5. Location Services

CareFlow uses your device location, where permitted, to identify nearby health facilities and estimate travel time. You may decline location access, though some features will be limited as a result.

6. Data Sharing

We do not sell your personal health information. Data may be shared with healthcare facilities you choose to contact through the app, and with service providers who help operate CareFlow, under confidentiality obligations.

7. Data Retention & Your Rights

You may request access to, correction of, or deletion of your data at any time through the Profile section of the app or by contacting support.

8. Limitation of Liability

CareFlow is provided on an "as is" basis. To the fullest extent permitted by law, CareFlow and its developers are not liable for decisions made based on information provided by the application.

9. Changes to These Terms

We may update these Terms from time to time. Continued use of CareFlow after changes take effect constitutes acceptance of the revised Terms.

10. Contact

Questions about these Terms or your data may be directed to the CareFlow support team through the app's Profile and Support section.
